

2020 Fall Continuing Education Class Schedule

ALL CLASSES REQUIRE A VALID EMAIL ADDRESS

***** Effective August 28, 2020 we will no longer be charging required material fees for any of the Continuing Education Classes for the Fall 2020 Semester. If you have already paid required material fees, you will receive a refund in the mail soon. *****

Aerial Lift Safety

*S&C Technician Eligible Class

Day(s): Monday & Wednesday 2 Sessions
Time: 5:00 PM – 8:00 PM
CE Hours: 6 hours
Date(s): October 12 & 14, 2020
Class Size: 20 Maximum
Instructor(s): Joseph Buhowsky
Location: Online Zoom Class (Zoom Invitation will be sent out via email at later date)
Description: Construction workers have the highest number of deaths among major industry groups. Aerial Lift incidents account for a significant portion of these deaths. You will learn the current best practices on how to operate and work safely from an aerial lift.
Required
Material(s): No Material / No Cost

****UPDATED DATES****

Open Enrollment- Still Accepting Registrations

Basic Computer Skills

*S&C Technician Eligible Class

Day(s): Tuesday & Thursday 21 Sessions
Time: 5:00PM to 8:00PM
CE Hours: Minimum of 33 hours / Maximum of 63 hours
Date(s): August 25, 2020 to November 10, 2020
Class Days: August 25, September 1, 15, 22, 29, October 6, 13, 20, 27 & November 10 & 17
Lab Days: August 27, September 3, 10, 17, 24, October 1, 8, 15, 22 & 29
Class Size: 20 Maximum
Instructor(s): Adalbert Baumgardner
Location: Online Zoom Class (Zoom Invitation will be sent out via email at later date)
Description: Learn the basic computer skills necessary in the Microsoft Office Suite, and current digital communication environments.

Tuesday's are Class days and Thursday's are Lab days. If there is no attendance or activity on Lab days after the first hour, it will be canceled for the rest of that session.
Required
Material(s): Blank Flash Drive & Composition Notebook
(Available if needed for pickup at JATC)

2020 Fall Continuing Education Class Schedule

ALL CLASSES REQUIRE A VALID EMAIL ADDRESS

Code Changes and Review (2017 NEC)

*S&C Technician Eligible Class

Day(s): Saturday 1 Session
Time: 8:00 AM to 2:30 PM (½ hour lunch break included)
CE Hours: 6 hours
Date(s): September 19, 2020
Class Size: 20 Maximum
Instructor(s): Dan Holgate
Location: Online Zoom Class (Zoom Invitation will be sent out via email at later date)
Description: The 2017 NEC has been adopted and is the code currently enforced. Typical to the 3-year code cycle, Sections are revised, new Sections and Articles are added to support emerging technologies and conform to current safety research. This class is an attempt to provide both a preview of coming attractions in the NEC, and to place new material in the context of our existing code knowledge.

The class will draw upon the instructor's experience as a building inspector, JATC instructor and illustrated by the many pictures that have been taken of building projects at UC Berkeley. Discussion and questions are encouraged, so that everyone's experience may benefit the class.

Required
Material(s): 2017 National Electrical Code
(Code Book Available if Needed)

Confined Space Training

*S&C Technician Eligible Class

Day(s): Monday & Wednesday 2 Sessions
Time: 5:00 PM – 8:00 PM
CE Hours: 6 hours
Date(s): October 19 & 21, 2020
Class Size: 15 Maximum
Instructor(s): Joseph Buhowsky
Location: Online Zoom Class (Zoom Invitation will be sent out via email at later date)
Description: On May 1, 2015 the Confined Spaces in Construction Standard was issued (OSHA Subpart AA, 1926, 1200). This course will cover permit and non-permit confined space safe entry requirements, OSHA regulations and protective equipment. Class includes use of air sampling device ventilation equipment and confined space entry with retrieval equipment.
This training does not qualify employees to enter Permit-Required Confined Spaces.

Required
Material(s): Alameda JATC Confined Space Training Material
(Material will be emailed to you upon confirmed registration)

2020 Fall Continuing Education Class Schedule

ALL CLASSES REQUIRE A VALID EMAIL ADDRESS

Electrical Vehicle Infrastructure Training Program (EVITP)

Based on the 2017 NEC (Learning Management System)

Day(s): Monday & Wednesday 7 Sessions
Time: 5:00 PM to 8:00 PM
CE Hours: 21 hours
Date(s): September 14, 16, 21, 23, 28, 30 & October 5, 2020
(A proctored Final Exam will be held in person at the ZNE Center on October 5)
Class Size: 20 Maximum
Instructor(s): Joe Buhowsky
Location: Online Zoom Class (Zoom Invitation will be sent out via email at later date)
Description: Computer w/Internet Access Required (A computer w/internet access will be necessary to complete portions of the coursework.)
The Electric Vehicle Infrastructure Training Program (EVITP) provides technical training for electricians for the residential, commercial, public and fleet electric vehicle charging markets. The course provides a thorough understanding of charging products and associated equipment on the market today. EVITP- certified electricians go to work with the ability to implement best practices in charging station and infrastructure side assessment, load calculation, configuration, installation, troubleshooting, commissioning, maintenance and repair.
Each student must supply an e-mail address in order to be assigned a username and password.
Required Material(s): Blended Learning On-Line Training Sessions & 2017 NEC Code Book (Code Book Available if Needed)

NFPA 70E / Arc-Flash Training (2018 NEC)

*S&C Technician Eligible Class

Class #1: Saturday- October 10, 17, 24 & 31, 2020	4 Sessions
Day(s): Saturday Classes: 8:00 AM to 12:00 PM	
CE Hours: <u>16</u> hours	
Class #2: Monday & Wednesday- November 2, 4, 9 & 11, 2020	4 Sessions
Day(s): Monday & Wednesday Classes: 5:00 PM- 8:00 PM	
CE Hours: <u>12</u> hours	
Class Size: <u>20</u> Maximum	
Instructor(s): Joe Buhowsky	
Location: Online Zoom Class (Zoom Invitation will be sent out via email at later date)	
Description: If you do not fully understand 70E, you are putting your crew, company and client at risk. This course will focus on the NFPA 70E: Standard for Electrical Safety in the Workplace (2018). Topics include hazard assessment, who is responsible, justification for energized work, energized electrical work permits, PPE selection and limitations. "Safety Training" is required every 3 years to be considered a "Qualified Person".	

NECA Members Encouraged to Attend

Required Material(s): NFPA 70E Standard for Electrical Safety in the Workplace Code Book (2018) (NFPA 70E Book Available for pick-up at AJATC)

2020 Fall Continuing Education Class Schedule

ALL CLASSES REQUIRE A VALID EMAIL ADDRESS
